

BAILIWICK OF GUERNSEY LAW ENFORCEMENT

5th February 2020

This weekend sees the return of the annual Digital Ace event at Beau Sejour. A one-stop shop of the how, the what and the why of all things online security related, officers from our Digital Media Investigation Team and our High-Tech Crime Unit will be there to give you all the information you need to live a safe online life.

Digital Media Investigator Tom Elliott said:

“Everyone’s digital footprint is growing by the year, and with more and more devices coming internet enabled, along with the increasing demand for ‘smart home’ living, it’s more important than ever to ensure online security is as part and parcel of your routine as locking your car.”
