

CURRENT SCAMS & TRENDS

DON'T BE A VICTIM

There are a number of ongoing email scams relating to COVID-19.

These include:

- Face mask sales
- Immunity oil sales
- Sales of antibody tests
- Corona Virus Insurance

Criminals are currently preying heavily on services like Zoom and Microsoft Teams.

Always be wary if you receive an unknown link to these, use a meeting password and never share it externally.

Current scams also involve encouraging people to invest in crypto-currencies like Bitcoin or other financial schemes due to the pandemic's effect on the economy.

Don't buy it!
