

BAILIWICK OF GUERNSEY LAW ENFORCEMENT

22nd June 2020

Saturday saw Guernsey enter Phase Five of its lockdown, meaning restrictions were virtually completely removed.

As you would expect, we put in place an appropriate policing plan for the full resumption of the normal night-time economy. High visibility patrols were in the Town area throughout the night.

In total, three arrests were made on Saturday night, in keeping with what we would expect for a normal weekend.

Officers reported hundreds of people were out in Town enjoying themselves, the atmosphere was incredibly good and everyone in high spirits.

Patrolling officers liaised closely with licensees, who took steps such as limiting capacity and using additional door staff, which helped manage the situation.

Overall, the weekend was in line with those before lockdown.
